

# KEOJET RTV

**Pretreatment for reactive inks on cotton / viscose and their mixtures.**

## Characteristics

Chemical composition:	solution of inorganic salts and synthetic polymers
Appearance:	yellowish veiled liquid
pH t.q:	8.5 – 9
Ionic character:	non ionic
Solubility:	soluble in water
Shelf-life:	12 months

## Properties

**KEOJET RTV** is a ready-to-use preparation for heavy cotton fabrics, knitted or viscose to ink-jet printing with reactive inks.  
Ensures excellent color rendering to the print and good definition.

## Application

**KEOJET RTV** should be used as it is for foulard impregnation with pick up of 70 - 80% or in printing for plating with blind cylinder.

Drying at 110 - 120 °C for 2 min.
